## REPORT

The Certificate Course in Science in Vedas is designed to explore the intersection between traditional Vedic knowledge and modern scientific understanding. This unique course aims to bridge the gap between ancient wisdom and contemporary science, providing participants with a holistic understanding of both realms.

The Certificate Course in Science in Vedas provides a unique opportunity for individuals to broaden their intellectual horizons, fostering a deeper appreciation for the rich tapestry of knowledge that emerges when traditional wisdom and contemporary science converge. This course aims to empower participants with a holistic perspective that transcends disciplinary boundaries, encouraging a lifelong journey of learning and exploration.

On December 18, 2023, a Certificate Award Ceremony will take place, where each student will be officially presented with a certificate recognizing their achievement in completing the course. The ceremony promises to be a momentous occasion, featuring distinguished guests, keynote speakers, and an opportunity for networking.

We extend our heartfelt congratulations to each participant for their hard work and dedication. The journey of exploring the intersection between Vedic knowledge and modern science has been enriching, and we are proud to acknowledge their accomplishments.

We look forward to celebrating this milestone together and witnessing the continued success of these individuals as they carry forward the knowledge gained during the Certificate Course in Science in Vedas.

**MRI scans show that memorizing ancient mantras increases the size of brain regions associated with cognitive function**

**In the phase of computers**

Panini first developed and diluted the natural alphabet. (Natural Language Processing – NLP System). And it was on this basis that he created a grammar system in which the laws of the text of the script were laid down.

The machine can understand the language based on this grammar. What we today call Morphological, Syntactic or Semantic Analysis & Natural Language Processing.

How Sanskrit is being used in computers have origin in Vedas - Times of India
