REPORT

The School of Indian Knowledge System & Dharohar - CIKS - Gujarat Technological University, organized a one-day educational visit of Heritage sites of North Gujarat for the students of School of Applied Science and Technology and Graduate School of Pharmacy on 15th May 2023. The visit involved 125 enthusiastic participants who were quite curious to know the history and significance of the heritage sites. The itinerary of one day academic visit involved Sun Temple of **Modhera**, **Ranki Vav** and **Sahastra Ling Talav of Patan**.

The primary objective of this visit was to provide students with an opportunity to gain a deeper understanding and appreciation of our rich cultural heritage. It aimed to instill a sense of pride and connection to our glorious past. The visit was organized in line with the Ajadi ka Amrit Mahotsav and G20 initiatives, to celebrate India's independence and promote global cooperation.

The group started their journey after having breakfast as early as 7A.M. The first stop on our itinerary was the iconic Modhera Sun Temple. This ancient temple, dedicated to the Sun God, showcased remarkable architectural excellence. The students were awestruck by the intricate carvings, breathtaking sculptures, and the temple's historical significance.

During the midday, all participants enjoyed a delicious lunch at **Saraswati Pipalvan**, also known as the **Oxygen Park**. This tranquil spot, nestled along the banks of the Sarasvati River, offered a picturesque setting for students to immerse themselves in the captivating beauty of nature.

Our next destination was Rani ki Vav, a magnificent stepwell known for its elaborate and ornate design. The students marveled at the grandeur of this UNESCO World Heritage Site and appreciated the meticulous craftsmanship that went into creating such a stunning architectural marvel. While on the way to Patan, the faculty- Dr. Ankit Trivedi, Dr.Gaurav Shrimali from SAST, and Dr.Bhavin Khamar from GSP took initiative and prepared the Quiz on the sites of visit and students took part in the Quiz very enthusiastically. They were provided with pamphlets containing the history of the architectural marvels. The winners of the quiz were given caps as a prize. In this heritage visit Dr. Akash Gohil also give an effort for smooth conduction and organized this visit.

The final site on our itinerary was Sahasraling Talav, a historic reservoir with a rich cultural heritage. The students witnessed the grandeur of the ancient water management system and learned about its importance in sustaining communities in the past.

The participants were provided with specially designed t-shirts (with printed Logo of GTU, Sneh-ship and G-20), which were sponsored by the Sneh Silp Foundation, Ahmedabad. Co-operation from the Directors of SAST and GSP converted the whole programme into a success.

The one-day educational visit to the heritage sites of Modhera Sun Temple, Rani ki Vav, and Sahasraling Talav proved to be an enriching experience for all the participants. The students felt a profound sense of pride and appreciation for our remarkable heritage.
